Contributions to diversity, equity, and inclusion

- Computer Information Systems 830–882 at Riverside City College (RCC) 2020 – 2021
I designed and taught a free course in introductory computer at RCC, a Hispanic-Serving Institution Riverside, CA—a county that contains above average populations of several underrepresented groups¹. The course was available to all students, there were no prerequisites, and computers were provided to all students.
- Lowell Observatory Navajo-Hopi Astronomy Outreach Program ([Link](#)) 2014, 2018
The fraction of indigenous people pursuing bachelors degrees in STEM fields falls well below the fraction of the national population that they comprise². This program gets Navajo and Hopi students excited about science and education through astronomy. I participated as a Guest Astronomer.
